

Pangaea

Science

Grade: MS/Junior HS

I have...
geologists.

I have...
Greek word for "all lands".

I have...
the Paleozoic and Mesozoic
eras.

Who has...
the meaning of the word
"Pangaea"?

Who has...
the eras when Pangaea
existed?

Who has...
the process that separated
the supercontinent?

I have...
plate tectonics.

I have...
Alfred Wegener.

I have...
Panthalassa.

I have...
The Appalachians, the Atlas
Mountains, the Urals.

Who has...
the name of the person who
coined the name Pangaea?

Who has...
the name of the ocean that
surrounded Pangaea?

Who has...
the name of several
mountain ranges that were
formed with Pangaea?

Who has...
when Pangaea was
formed?

I have...
300 mya.

I have...
180 mya.

I have...
million years ago.

I have...
from the North Pole to the
South Pole.

Who has...
when Pangaea broke up?

Who has...
what mya is an acronym
for?

Who has...
how far north and south
Pangaea stretched?

Who has...
the name of the type of land
mass Pangaea was?

I have...
a supercontinent.

I have...
the Jurassic period.

I have...
two.

I have...
Gondwana and Laurasia.

Who has...
the period during which
Pangaea started to break
up?

Who has...
the number of parts
Pangaea initially broke
into?

Who has...
the names of the land
masses that Pangaea
initially broke in to?

Who has...
the location of landmasses
today that were part of
Laurasia?

I have...
the northern hemisphere.

I have...
about 200 million years
ago.

I have...
North America, India and
Arabia.

I have...
1912.

Who has...
when Laurasia began
dividing up?

Who has...
the names of the continents
today that were once
Laurasia?

Who has...
the year that the existence
of Pangaea was proposed?

Who has...
the concept that helped
explain the existence of
Pangaea?

I have...
continental drift.

I have...
that shapes of continents
on either side of the Atlantic
Ocean seemed to fit
together.

Who has...
one of the reasons that
continental drift was initially
proposed?

Who has...
the type of scientist that
studies continental drift and
supercontinents?
